Aspiring System Administrator with hands-on experience building and managing a Windows Server environment in a virtualized home lab. Proven ability to configure Active Directory, Group Policy, and core network services (DNS, DHCP). Actively pursuing CompTIA Network+ certification to validate foundational IT skills.

Area of Expertise

- Strong coding methodologies
- Windows/linux system administration
- Engineering flow diagram
- Web development
- Cloud computing
- Data Structure and Algorithm

PROFESSIONAL EXPERIENCE

UNO Mindra, Manesar, Haryana (July 2023 – Aug 2023)

IoT Development (Internship)

Uno Mindra Limited (formerly Mindra Industries Limited) is a leading global manufacturer of proprietary automotive solutions and systems supplying to OEMs as Tier-1 one of the leading manufacturers of automotive switching systems, automotive lighting systems, automotive acoustics systems, automotive seating systems and alloy wheels.

Key Initiative: initiated the transition of IoT development; migrating from manual setup to automatic setup by using native application (android) with a web view for the bulk of the user interface.

- Drafted the software roadmap to a pure native application including the user interface.
- Transmit all source code to source code revision system.
- Build and learn mentorship from the production and software team.
- Develop different software using Arduino uno.

EDUCATION QUALIFICATIONS

Deenbandhu Chhotu Ram University of Science and Technology, Murthal, Haryana (2021 – 2025)

Studied Bachelor of technology in Computer Science.

Sarasvati Vidya Mandir, Uttarakhand (2021)

Studied higher secondary school.

TECHNICAL CERTIFICATION/COURSEWORK

System Administration & Platforms: Windows, Linux PyCharm, Android studio |

Cloud Computing: Google Cloud Platform, AWS EC2 |

Certification: Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (**1Z0-1122-25**), AWS Educate Introduction To Generative AI - Training Badge |
